

State: Arunachal Pradesh
Agriculture Contingency Plan for District: East Kameng

1.0 District Agriculture profile*				
1.1	Agro-Climatic/Ecological Zone			
	Agro Ecological Sub Region (ICAR)	16.3 Arunachal Pradesh (Subdued Eastern Himalayas), warm to hot, perhumid eco-subregion (C1A10)		
	Agro-Climatic Zone (Planning Commission)	Eastern Himalayan Region		
	Agro Climatic Zone (NARP)	Zone II, Eastern Himalayan zone (Temperate, sub alpine & subtropical hill condition)		
	List all the districts falling under the NARP Zone* (*>50% area falling in the zone)	Whole district		
	Geographic coordinates of district headquarters	Latitude	Longitude	Altitude
		26°56' and 27°57' N	92°36'; and 93°24' E	356 msl
	Name and address of the concerned ZRS/ ZARS/ RARS/ RRS/ RRTTS	ICAR Research Complex for NEH Region, Basar, Arunachal Pradesh		
	Mention the KVK located in the district with full address	East Kameng District, Pampoli -790102, Arunachal Pradesh		
	Name and address of the nearest Agromet Field Unit (AMFU, IMD) for agro-advisories in the Zone	ICAR Research Complex for NEH Region, Basar, Arunachal Pradesh		

1.2	Rainfall	Normal RF(mm)	Normal Rainy days (number)	Normal Onset (specify week and month)	Normal Cessation (specify week and month)
	SW monsoon (June-Sep):	1744.6	NA	3 rd week of June.	3 rd week of Sept.
	NE Monsoon(Oct-Dec):	197.2	-	-	-
	Winter (Jan- February)	78.3	-	-	-
	Summer (March-May)	590.3	-	-	-
	Annual	2610.4		-	-

1.3	Land use pattern of the district (latest statistics)	Geographical area	Cultivable area	Forest area	Land under non-agricultural use	Permanent pastures	Cultivable wasteland	Land under Misc. tree crops and groves	Barren and uncultivable land	Current fallows	Other fallows
	Area ('000 ha)	413.4	23.12	212.9	0.78	0.75	1.28	1.15	0.61	2.08	6.55

2011-12 Stats Directorate of Economics and Statistics, Ministry of Agriculture, Govt. of India

1.4	Major Soils (common names like red sandy loam deep soils (etc.,))*	Area ('000 ha)**	Percent (%) of total geographical area
	1.		
	2.		
	3.		
	4.		
	5.		
	Others (specify):		

* mention colour, depth and texture (heavy, light, sandy, loamy, clayey etc) and give vernacular name, if any, in brackets (data source: Soil Resource Maps of NBSS & LUP); ** Pl. give the details of the major soils occupying more than 5% of total geographical area. Degree of soil acidity (pH) may also be indicated

1.5	Agricultural land use	Area ('000 ha)	Cropping intensity %
	Net sown area	12.06	120.9%
	Area sown more than once	2.52	
	Gross cropped area	14.58	
2011-12 Stats Directorate of Economics and Statistics, Ministry of Agriculture, Govt. of India			

1.6	Irrigation	Area ('000 ha)
	Net irrigated area	1.762
	Gross irrigated area	1.762
	Rainfed area	9.380

2008-09 Stats Directorate of Economics and Statistics, Ministry of Agriculture, Govt. of India

Sources of Irrigation	Number	Area ('000 ha)	Percentage of total irrigated area
Canals			Area may be indicated
Tanks			
Open wells			
Bore wells			
Lift irrigation schemes			
Micro-irrigation			
Other sources (please specify)			
Total Irrigated Area			
Pump sets			
No. of Tractors			
Groundwater availability and use* (Data source: State/Central Ground water Department /Board)	No. of blocks/ Tehsils	(%) area	Quality of water (specify the problem such as high levels of arsenic, fluoride, saline etc)
Over exploited			
Critical			
Semi- critical			
Safe			
Wastewater availability and use			
Ground water quality			

*over-exploited: groundwater utilization > 100%; critical: 90-100%; semi-critical: 70-90%; safe: <70%

1.6. a.	Fertilizer and Pesticides use	Type	Total quantity (tonnes)
1	Fertilizers*	Urea DAP Potash SSP Other straight fertilizers (specify) Other complex fertilizers (specify)	20 30 10
2	Chemical Pesticides*	Insecticides + Fungicides (liquid) Insecticides + Fungicides (IDust) Weedicides Others (specify)	290 lt 100 qt

* If break up is not available, indicate total quantity used in the district for any recent year, mention here the year and source of statistic

1.7 Area under major field crops & horticulture (as per latest figures) (Specify year 2007-08)

1.7	S.No.	Major field crops cultivated	Area ('000 ha)							
			<i>Kharif</i>			<i>Rabi</i>			Summer	Grand total
			Irrigated	Rainfed	Total	Irrigated	Rainfed	Total		
1	Paddy(Jhum & WRC)		8.25	8.25					8.25	
2	Maize		2.453	2.45					2.45	
3	Millet		0.49	0.49					0.49	
4	Pulses					0.898	0.898		0.89	
5	Oilseeds					1.028	1.028		1.028	
	Others (specify)									

	S.No.	Horticulture crops - Fruits	Area ('000 ha)		
			Total	Irrigated	Rainfed
	1	Pears	14.3328		14.3328
	2	Plum	0.244		0.244
	3	Peach	3.88		3.88
	4	Coconut	0.24025		0.24025

5	Mango	3.4		3.4
6	Orange	711.38		711.38
7	Guava	12.017		12.017
8	Pine Apple	749.037		749.037
9	Banana	65.6988		65.6988
10	Litchi	19.2		19.2
11	Pomegranate	0.026		0.026
12	Lemon	0.7105		0.7105
13	Jack Fruits	2.821		2.821
14	Papaya	0.466		0.466
	Others (specify)			
	Horticulture crops - Vegetables	Total	Irrigated	Rainfed
1	Chilli	82		82
2	Potato	90		90
3	Ginger	55		55
4	Vegetables	388		388
	Others (specify)			
	Medicinal and Aromatic crops	Total	Irrigated	Rainfed
1	NA			
2				
3				
4				
5				
	Others (specify)			
	Plantation crops	Total	Irrigated	Rainfed
1	NA			
2				
3				
4				
5				
	Others (Specify)	Eg., industrial pulpwood crops etc.		
	Fodder crops	Total	Irrigated	Rainfed
1	NA			
2				
3				

	4				
	5				
	Others (Specify)				
		Total fodder crop area			
		Grazing land, reserve areas etc	877		
		Availability of unconventional feeds/by products eg., breweries waste, food processing, fermented feeds bamboo shoots, fish etc			
		Sericulture etc Other agro enterprises (mushroom cultivation etc specify)			
		Others (specify)			

1.8	Livestock (Data source: Live stock Census 2007)	Male ('000)	Female ('000)	Total ('000)
	Indigenous cattle	13.21	15.09	28.30
	Improved / Crossbred cattle	2.13	2.10	4.23
	Buffaloes (local low yielding)			-
	Improved Buffaloes			-
	Goat	10.42	11.98	22.40
	Sheep			-
	Pig	13.3	12.24	25.53
	Mithun			23034
	Yak			-
	Dog			12256
	Others ; Ducks			9506
	Commercial dairy farms (Number)			
1.9	Poultry	No. of farms	Total No. of birds ('000)	
	Commercial	Nil		
	Backyard			84.09
1.10	Fisheries (Data source: Chief Planning Officer)			
	A. Capture			

i) Marine (Data Source: Fisheries Department) - Nil	No. of fishermen	Boats		Nets		Storage facilities (Ice plants etc.)
		Mechanized	Non-mechanized	Mechanized (Trawl nets, Gill nets)	Non-mechanized (Shore Seines, Stake & trap nets)	
	-	-	-	-	-	-
ii) Inland (Data Source: Fisheries Department)- 2008	No. Farmer owned ponds		No. of Reservoirs		No. of village tanks	
	414		-		100	
B. Culture						
			Water Spread Area (ha)	Yield (t/ha)	Production ('000 tons)	
i) Brackish water (Data Source: MPEDA/ Fisheries Department)			Nil	-	-	
ii) Fresh water (Data Source: Fisheries Department)			104.3	0.225	23.5	
Others						

1.11 Production and Productivity of major crops (Average of last 5 years: 2006, 07, 08, 09, 10)

1.11	Name of crop	Kharif		Rabi		Summer		Total		Crop residue as fodder ('000 tons)
		Production ('000 t)	Productivity (kg/ha)							
Major Field crops (Crops to be identified based on total acreage)										
Crop 1	Rice	10311	1249					10311	1249	
Crop 2	Maize					3273.8	1315	3273.8	1315	
Crop 3	Millet	516	1029					516	1029	

Crop 4	Wheat			55.4	2067			55.4	2067	
Crop 5	Arhar			48.2	1142			48.2	1142	
Crop 6	Rajma	86	1453					86	1453	
Crop 7	Local pulse			606.65	1041			606.65	1041	
Crop 8	Black gram	88.254	1095					88.254	1095	
Crop 9	Green gram	79.554	1030					79.554	1030	
Crop 10	Pea			77.98	1378			77.98	1378	
Crop 11	Soybean	294.4	1612					294.4	1612	
Crop 12	Mustard			555.28	1081			555.28	1081	
Crop 13	Ginger	232.3	4090					232.3	4090	
Crop 14	Chilli	64.7	783.5	64.7	783.5			129.4	1567	
Crop 15	Potato	595.2	6386					595.2	6386	
Crop 16	Vegetables			973.1	2461	973.1	2461	1946.2	4922	
Major Horticultural crops (Crops to be identified based on total acreage)										
Crop 1										
Crop 2										
Crop 3										
Crop 4										
Crop 5										
Others										

1.12	Sowing window for 5 major field crops (start and end of normal sowing period)	Crop 1: <i>Sali</i> Paddy	2:Maize	3: Millet	4: Arahara	5:Mustard
	Kharif- Rainfed	1 st week of June – 2 nd week of July	2 nd week of June – 2 nd week of July	2 nd week of April – 2 nd week of May	2 nd week of June – 2 nd week of July	
	Kharif-Irrigated					
	Rabi- Rainfed					
	Rabi-Irrigated					2 nd week of October – 2 nd week of November
	Summer-irrigated					
	Summer-rainfed		1 st week of March – 1 st April of July			

1.13	What is the major contingency the district is prone to? (Tick mark)	Regular*	Occasional	None
	Drought			
	Flood			
	Cyclone			
	Hail storm			
	Heat wave			
	Cold wave			
	Frost			
	Sea water intrusion			
	Snowfall			
	Landslides			
	Earthquake			
	Pests and disease outbreak (specify)			
	Others (like fog, cloud bursting etc.)			

*When contingency occurs in six out of 10 years

1.14	Include Digital maps of the district for	Location map of district within State as Annexure I	Enclosed: Yes
		Mean annual rainfall as Annexure 2	Enclosed: No
		Soil map as Annexure 3	Enclosed: No

Location map of East Kameng

2.0 Strategies for weather related contingencies

2. Drought

2.1 Drought (Rainfed situation)

Drought-Pre-Monsoon (Last week of March to First week of April) Normal

Condition	Major Farming situation	Normal Crop / Cropping system	Suggested Contingency measures		
			Change in crop /cropping system including variety	Agronomic measures	Remarks on Implementation
Delay by 2 weeks (2 nd to 3 rd week of April)	Gently sloping upland with deep coarse loamy soils	Maize	No change <ul style="list-style-type: none"> Short duration crops/varieties like RCM-1-75, RCM-1-76 Maize + groundnut/soya bean/rice bean inter cropping. 	<ul style="list-style-type: none"> Conservation of pre-monsoon soil moisture through soil/straw/grass mulching practices Hydropriming/ seed soaking in water for 24hr and followed by shade drying before sowing. Application of organic manure before sowing. 	RARS-AAU, ICAR, RKVY,ATMA, ADO and DHO
		Millet	No Change Short duration crops/varieties of finger millet (VR-708, GPU-67), foxtail millet (SR-16, Meera)		RARS-AAU, ICAR, RKVY,ATMA, ADO and DHO
		Soybean	No Change <ul style="list-style-type: none"> Intercropping with rajma, lobia 	<ul style="list-style-type: none"> Mulching with locally available biomass Application of organic manure before sowing. 	RARS-AAU, ICAR, RKVY,ATMA, ADO and DHO
		Vegetable (bottle gourd, chilli, brinjal, Tomato)	<u>Bottle gourd</u> <ul style="list-style-type: none"> Punjab Round, Pusa Sandesh, Narendra 	<u>Bottle gourd</u> <ul style="list-style-type: none"> Use of organic manures (FYM 5 tones/ha or vermicompost 1 ton/ha) Raise crop on ridge-furrow or raised bed planting system 	RARS-AAU, ICAR, RKVY,ATMA, ADO and DHO
