

BRIEF NOTE ON LIVE STORAGE STATUS OF 91 RESERVOIRS IN THE COUNTRY (WITH REFERENCE TO RESERVOIR STORAGE BULLETIN OF 10.08.2017)

1. ALL INDIA STATUS

Central Water Commission is monitoring live storage status of 91 reservoirs of the country on weekly basis and is issuing weekly bulletin on every Thursday. Out of these reservoirs, 37 reservoirs have hydropower benefit with installed capacity of more than 60 MW. The total live storage capacity of these 91 reservoirs is 157.799 BCM which is about 62% of the live storage capacity of 253.388 BCM which is estimated to have been created in the country. As per reservoir storage bulletin dated **10.08.2017**, live storage available in these reservoirs is **73.492 BCM**, which is **47%** of total live storage capacity of these reservoirs. However, last year the live storage available in these reservoirs for the corresponding period was **84.624 BCM** and the average of last 10 years live storage was **83.305 BCM**. Thus, the live storage available in 91 reservoirs **as per 10.08.2017 Bulletin** is **87%** of the live storage of corresponding period of last year and **88%** of storage of average of last ten years.

As per Table-01, the overall storage position is **less than the** corresponding period of last year in the country as a whole but is **less than the** average storage of last ten years during the corresponding period.

2. REGION WISE STORAGE STATUS:

a) NORTHERN REGION

The northern region includes States of Himachal Pradesh, Punjab and Rajasthan. There are 6 reservoirs under CWC monitoring having total live storage capacity of 18.01 BCM. As per Reservoir Storage Bulletin dated **10.08.2017**, the total live storage available in these reservoirs is **13.60 BCM** which is **76%** of total live storage capacity of these reservoirs. The storage during corresponding period of last year was **60%** and average storage of last ten years during corresponding period was **60%** of live storage capacity of these reservoirs. Thus, storage during current year is better than the corresponding period of last year and is also better than the average storage of last ten years during the corresponding period.

b) EASTERN REGION

The Eastern region includes States of Jharkhand, Odisha, West Bengal and Tripura. There are 15 reservoirs under CWC monitoring having total live storage capacity of 18.83 BCM. As per Reservoir Storage Bulletin dated **10.08.2017**, the total live storage available in these reservoirs is **8.48 BCM** which is **45%** of total live storage capacity of these reservoirs. The storage during corresponding period of last year was **47%** and average storage of last ten years during corresponding period was **41%** of live storage capacity of these reservoirs. Thus, storage during current year is less than the corresponding period of last year but is better than the average storage of last ten years during the corresponding period.

c) WESTERN REGION

The Western region includes States of Gujarat and Maharashtra. There are 27 reservoirs under CWC monitoring having total live storage capacity of 27.07 BCM. As per Reservoir Storage Bulletin dated **10.08.2017**, the total live storage available in these reservoirs is **15.40 BCM** which is **57%** of total live storage capacity of these reservoirs. The storage during corresponding period of last year was **65%** and average storage of last ten years during corresponding period was **57%** of live storage capacity of these reservoirs. Thus, storage during current year is less than the storage of last year but is equal to the average storage of last ten years during the corresponding period.

d) CENTRAL REGION

The Central region includes States of Uttar Pradesh, Uttarakhand, Madhya Pradesh and Chhattisgarh. There are 12 reservoirs under CWC monitoring having total live storage capacity of 42.30 BCM. As per Reservoir Storage Bulletin dated **10.08.2017**, the total live storage available in these reservoirs is **21.01 BCM** which is **50%** of total live storage capacity of these reservoirs. The storage during corresponding period of last year was **64%** and average storage of last ten years during corresponding period was **50%** of live storage capacity of these reservoirs. Thus, storage during current year is less than the storage of last year but is equal to the average storage of last ten years during the corresponding period.

e) SOUTHERN REGION

The Southern region includes States of Andhra Pradesh, Telangana, AP&TG (2 combined projects in both states) Karnataka, Kerala and Tamil Nadu. There are 31 reservoirs under CWC monitoring having total live storage capacity of 51.59 BCM. As per Reservoir Storage Bulletin dated **10.08.2017**, the total live storage available in these reservoirs is **15.00 BCM** which is **29 %** of total live storage capacity of these reservoirs. The storage during corresponding period of last year was **39%** and average storage of last ten years during corresponding period was **55%** of live storage capacity of these reservoirs. Thus, storage during current year is less than the corresponding period of last year and is also less than the average storage of last ten years during the corresponding period.

•

Disclaimer: The Data contained in this Bulletin is as received from the State Government/Project Authorities.

RESERVOIRS STORAGE STATUS

The total live storage in 91 important reservoirs in different parts of the country, monitored by CWC on week ending **10.08.2017** was **73.492** Billion Cubic Meter (BCM) (**47** percent of the storage capacity at Full Reservoirs Level (FRL) against **84.624** (BCM) (**54** percent of the storage capacity at FRL) during corresponding date of pervious year and **83.305** (BCM)(**53** percent of the storage capacity at FRL) which is the average storage of the last 10 years. The storage was more than the last year's position by **-11.132** BCM and more than the average of last ten years storage position by **-9.813** BCM.

The current year's storage is nearly **87** percent of the last year's storage and **88** percent of the average of last ten years. There are **51** reservoirs having storage more than **80** percent, **17** reservoirs having storage 51% to 80%, **11** reservoirs having storage 31% to 50%. The reservoirs reporting storage upto 30% of normal storage is **12**

Out of 91 reservoirs **1** nos. having no live storage as on **10.08.2017** and there were **1** reservoirs reporting no live storage on the corresponding period of last year.

CURRENT STATUS OF HYDROLOGIC CONDITION IN INDIA
RESERVOIRS STORAGE STATUS

The total live storage in 91 important reservoirs in different parts of the country, monitored by CWC on week ending **10.08.2017** is **73.492** Billion Cubic Meter (BCM). It is more than the average of last 10 years storage by **-9.813** BCM and more than the last year's storage by **-11.132** BCM.

SL. No.	Description	As on 10.08.2017			As on 03.08.2017		
		Current Year	Last Year	Average of last 10 Years	Current Year	Last Year	Average of last 10 Years
1	Total Live Storage (BCM)	73.492	84.624	83.305	67.683	65.109	69.510
