

No. 11-4/2019-NRAA
National Rainfed Area Authority (NRAA)
Ministry of Agriculture & Farmers Welfare, Government of India
2nd Floor, A-Block, NASC Complex, Dev Prakash Shastri Marg, New Delhi – 110012

Dated: 01-05-2019

Subject: Expression of Interest (EOI) from Consultancy Firms/Research Institutions/ NGOs/ Universities and Individual Experts for Empanelment with NRAA for carrying out Monitoring, Evaluation and Research/Case studies - regarding.

Rainfed agriculture has a prominent role to play in India's agriculture and economy. India ranks first among the rainfed countries in the world in terms of area, but counts amongst the lowest in rainfed yields (around 1 ton/ha). Rainfed areas are home to majority of our rural poor and marginal farmers, who encounter multiple risks and uncertainties relating to bio-physical and socio-economic conditions resulting in poverty, malnutrition, water scarcity, severe land degradation, lower yields, low investments and poor physical and social infrastructure.

NRAA was established as an expert body of Ministry of Agriculture to provide the much needed knowledge inputs regarding systematic up-gradation and management of country's dryland and rainfed agriculture.

The mandate of the Authority are:

- i. To prepare a perspective plan, outlining the national strategy and road map for holistic and sustainable development of rainfed farming areas.
- ii. To evolve comprehensive guidelines for all initiatives (schemes etc) of different Ministries including externally aided project (EAPs) for promotion of rainfed / dry land farming systems.
- iii. To coordinate and bring convergence within and amongst agricultural and wasteland development programmes taken up for rainfed areas by various stakeholders.
- iv. To identify rainfed areas in different states and prioritise them based on severity, and prepare developmental strategies, including watershed development plans in consultation with states, focusing on multi-dimensional activities – field crops, horticulture, dairy & animal husbandry, fishery, silvi-pasture and agro-forestry and secondary agriculture, with a view to nurturing natural resources and promoting welfare of people on a sustainable basis.
- v. To identify gaps in input supply (including organic status), credit availability, access to appropriate technology, and awareness & knowledge level of farmers in rainfed areas.
- vi. To guide the implementing agencies on priority setting, and monitor the specific interventions required.

- vii. To suggest modalities needed to strengthen national and state level institutions/organisations concerned with rainfed/dryland areas; promote inter-institutional/organizational linkages; and establish their responsibility vis-a-vis. prioritised watersheds.
- viii. To develop plans/ programmes for capacity building of both governmental and non-governmental functionaries at all levels (national, state, district and field).
- ix. To set the research agenda including a critical appraisal of on-going programmes and promote diffusion of required knowledge for integrated farming in rainfed areas down to district and field level authorities.
- x. To monitor trends in disbursement of rural credit/insurance cover/ safety net programmes developed for rainfed areas.
- xi. To evaluate the effectiveness of completed projects, programmes, watersheds etc. and undertake concurrent evaluation of on-going programmes.

It is envisaged that the NRAA would serve as a knowledge platform and connect research/academic institutions and implementing agencies. It would also focus on livelihood opportunities for the landless and marginal farmers who constitute a large majority of the rainfed area population. One of the mandate given to NRAA is to monitor and evaluate programmes in the rainfed areas, to assess their performance and also to guide the implementation agencies on the short-term and long-term plan with prioritized strategies and suggesting interventions and guidelines which will be beneficial to the rainfed farming community.

In the above context, NRAA is keen to empanel Consultancy Firms, Management Institutes, Research Organizations, NGOs, Universities, and individual experts for carrying out monitoring, evaluation and research/case studies on outsourcing basis in the country. Accordingly, NRAA invites Expression of Interest (EOI) from reputed Consultancy Organizations, Management Institutes, Research Institutions, NGOs, Universities and individual experts having requisite experience and expertise in the domain for undertaking monitoring and evaluation works and research for NRAA. Interested organizations/ experts may submit their EOIs supported with all required information/documents for empanelment with the NRAA.

2. Submission of EOIs: The NRAA proposes to screen the EOIs and empanel those found suitable under the following Sectors/Sub-Sectors:

- i. Natural Resources Management
- ii. Agriculture including horticulture
- iii. Animal Husbandry, dairying and fisheries
- iv. Livelihoods and secondary agriculture

3. Closing date for submission of EOI: Interested institutions/ organizations/ agencies may send their EOIs, specifying their preferences of the Sectors/Sub-Sectors they want to be empanelled. EOIs should be submitted as per **Format** given at **Annex-1** along with all the

relevant documents in support of their registration, relevant experience, qualification, evaluation/research work done, financial strengths, etc. Similarly, interested individuals may send their CVs with all details as indicated at para no. 7.1(2). **Last date for receipt of EOI is 15.06.2019** .For any query in this regard, please contact: **Technical Expert (Water Management), NRAA, 2nd Floor, A Block, NASC Complex, DPS Marg, New Delhi-110012, Phone No.: 011-25842894 or email: brath@nic.in).**

4. EOI Application / Processing Fee: Nil.

5. Empanelment: A Screening Committee at NRAA will assess the eligibility of the applicant organizations/ experts for Sector/Sub-sector wise empanelment based on qualification criteria as given in the subsequent paragraphs. Applicant organizations/ experts scoring more than a given total marks (to be fixed by the Screening Committee) would be considered for empanelment. The NRAA will select the organization/ expert for award of a particular study by inviting RFPs from among the empanelled agencies/ experts under the relevant sectors/ sub sectors, as and when required in future.

6. Eligibility Criteria: The eligibility criteria are as under:

6.1 Eligibility Criteria for Organizations:
